The screenshot shows the Bizagi Modeler software interface. On the left, there is a palette with various BPMN symbols like Start, End, Task, and Event. The main workspace displays a BPMN diagram with a flow starting from a green circle, leading to a task 'Register Travel Request', then to another task 'Approve Request', and finally to a task 'Buy tickets'. A large, semi-transparent overlay window is centered on the screen, featuring the Bizagi logo and the text: 'Share, Solve, Learn, Join us Today! Sign up to Bizagi Community today and join thousands of BPM experts around the globe. Get product support, share ideas, solve problems and learn from our network. It's all free and take seconds to join. Join today. Already have an account? Sign in'. The bottom of the interface shows a video player control bar with a progress bar at 7:07 / 7:21.
